10

15

Invalid explanation for "Xaa" at location 16, Each "Xaa" ca represent only single Amino Acid. If "Xaa" has to be " Phe-Tyr-Leu or His-His-Thr-Phe-Tyr" you have to insert 4 "Xaa's " and inset the locations at numeric identifier <222> and change the total number of Amino Acid bases in numeric identifier <211>.

Please check for similar errors and make all necessary changes.
